

What new features does the Epson Perfection V700 PHOTO scanner offer?

The Epson Perfection V700 PHOTO represents a breakthrough in flatbed scanning by offering the highest optical scan resolution available for photo studio applications. This powerful performer gives you leading scanner technologies.

Did You Know?

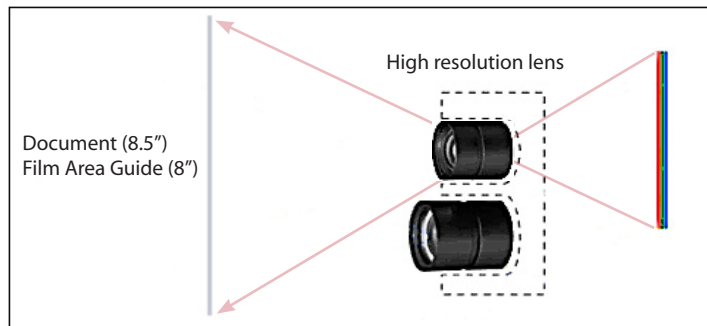

With groundbreaking 6400 dpi resolution, this powerful scanner consistently delivers precision color and detail, whether scanning slides, negatives or medium-format film. The Epson Perfection V700 PHOTO offers a unique **Dual Lens System**, which automatically selects from two lenses for the desired scan resolution.

Dual Lens System offers two lenses for two different resolutions.

High Resolution lens

The Epson Perfection V700 PHOTO offers up to 4800dpi optical resolution with the High Resolution lens.

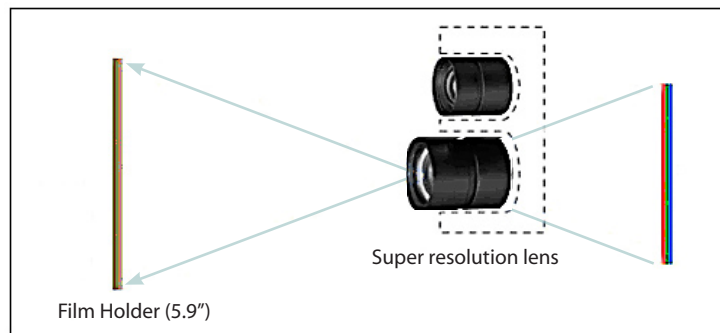

Super Resolution lens

With the 6400 dpi Super Resolution Lens, users can scan slides and film with all the film holders bundled with the Epson Perfection V700 PHOTO (with a scanning width of 5.9 inches).

Bundled film holders for: 35mm film strips x 24, 35mm slides x 12, medium format (120/220) x 2, 4 x 5 inch x 2
