

# Epson EX100

Small size without compromise.

**EPSON**<sup>®</sup>  
EXCEED YOUR VISION

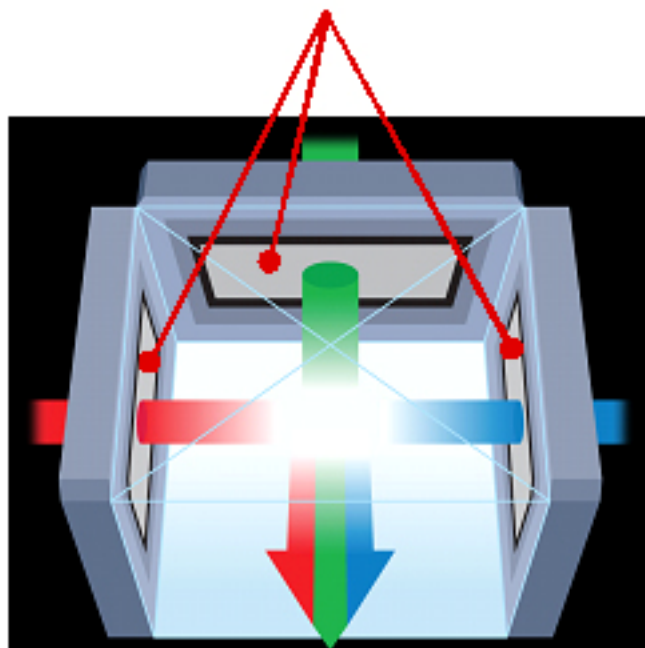

# Bright, true-to-life color

## 3LCD Technology Advantages:

- **3-Chip Optical Engine:** All 3LCD projectors use a 3-chip optical engine to deliver incredibly bright, true-to-life color.

3LCD Image Chips

A better way to see.

# Rich, vibrant color

## 3LCD Technology Advantages:

- **High Color Light Output** – 3LCD projectors consistently deliver high Color and White Light Output so images, video and text always looks their very best.

# Reliable performance

## 3LCD Technology Advantages:

- **No Color Wheel:** 3LCD projectors do not rely on a spinning color wheel to produce color and do not suffer from “the rainbow effect” or “color break-up.”
- **Road-Tested Reliability:** 3LCD technology has been the world leader for 19 years and has consistently been the choice of users who demand the long-life performance and reliability.

Simulated Image
