

Epson PowerLite® Home Cinema 6100

EPSON
EXCEED YOUR VISION

Epson PowerLite Home Cinema 6100

Astounding quality.
Amazing value.

*Big-screen
entertainment your
customers have to see
to believe!*

Astounding quality.

Detail that puts your customers in the middle of the action

- High-definition, true, native 1080p home theater experience
- Bright, crystal clear detail—new D7 technology with an 18,000:1 contrast ratio
- Amazing image quality—exclusive OptiCinema lens made by Fujinon* with a 2.1 zoom ratio

** This type of lens is typically used by renowned Hollywood filmmakers*

Astounding quality.

Blockbuster image quality—brilliant color and white

- Brilliant images, anytime, day or night—1800 lumens color, 1800 lumens white (ISO 21118)*
 - Epson measures white light output according to the ISO 21118 standard, a more rigid standard than the maximum or outdated ANSI lumens rating.
 - Color light output is critically important because color is a key indicator of picture quality, which is the most important factor in choosing a projector.

Simulated projector image

* Light output varies depending upon modes (color and white light output) selected.

Astounding quality.

Stunning color—an astonishing level of realism

- Rich, vibrant color—3LCD panel with a 3-chip optical engine
- Astounding color fidelity—Epson exclusive Cinema Filter with a larger color gamut

3LCD technology goes far beyond ordinary color. “Clear”, “rich” and “vibrant” barely begin to describe the incredible depth and brilliance it delivers. The impact is stunning.

Astounding quality.

Amazing action takes video performance to the next level

- Smooth gradations—10-bit panel driver
- Ideal for fast-action movies, TV shows—advanced, high-speed auto iris function adjusts light output at up to 120 times per second

3LCD technology delivers amazing color and detail and legendary image quality; this innovative technology always ensures powerful visual presentations.

Amazing value.

All this, and your customers save money!

- Energy and cost efficient—new E-TORL lamp lasts up to 4,000 hours*
 - Switch the projector to High Brightness Mode and the E-TORL lamp still produces up to 4,000 hours of light performance. The special E-TORL design minimizes light defraction and improves screen uniformity, providing the ultimate in lamp longevity.
 - ***E-TORL replacement lamps cost up to \$150 less than competing replacement lamps.*** So, while the E-TORL lamp maximizes viewing time, it also minimizes costs.

* Lamp life results will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

Amazing value.

Outstanding support and easy maintenance

- Outstanding support—2-year limited warranty; next-business-day Home Service shipping
 - 3LCD technology is durable and dependable. Road-tested by millions of projector users around the world, it has been used in more projection products than any other. Over 40 million chips used in projectors and RPTV products have been put to the test.

Amazing value.

Easy connectivity and maintenance

- Cutting-edge connectivity—two HDMI 1.3 ports for maximum flexibility
- Easy maintenance—convenient dust filtration system with large surface area for greater efficiency
